

About us

Established in 1972

Marine Systems has been a core Newlyme activity since our company was formed more than 30 years ago, and during this time we have built up a reputation for excellent, solid, reliable systems.

Specialising in Control & Monitoring Systems

Specialists in marine electronic monitoring and control systems with particular emphasis on refrigeration temperatures and the associated refrigeration machinery.

Economic Continuity

Whether you are looking for a new system or a re-fit of your existing system we can provide a solution to your exact requirements. Because we manufacture, design and install our own systems in their entirety (even down to the circuitry) we can provide a solution to your exact requirement that guarantees your vessel's economic continuity.

Lifetime Guarantee

All our systems are fully supported and maintained for the life of your vessel and our flexible approach to all applications, and our ability to modify an existing product or develop a new one quickly makes Newlyme your most economical option.
